

ELECTRIC POWER PACKS | 1.25QE / 1.50QE

100% electric. Zero emissions.

SINGLE PHASE OUTPUT
230V

OUTPUT CAPACITY
8kW

BATTERY TYPE
LITHIUM-ION

ZERO EMISSIONS.

JCB's clean technology electric power packs have zero emissions at point of use, making them safe for any environment.

CLEAN POWER

With zero emissions of CO₂, NO_x and particulates, the JCB power packs are able to work indoors and underground.

ZERO COMPROMISE.

By using the most energy dense Lithium-Ion technology, JCB electric power packs provide the maximum available power in the smallest package.

COMPACT DESIGN

A compact 1m³ design combined with the ability to stack up to 3 units high make JCB power packs the ideal power solution where space on site is at a premium.

LOW NOISE.

With no engine, the JCB power packs offer near silent operation on site, creating new opportunities for noise sensitive or out-of-hours applications.

ZERO RESTRICTIONS

A noise level of 0dbA means the power packs are able to provide power around the clock without causing any disruption.

REDUCED COST.

State-of-the-art inverter technology and automotive grade Lithium-ion batteries ensure that the JCB power packs deliver maximum uptime.

MAXIMUM EFFICIENCY

4 lifting points, 4 tie down points and fork pockets on every side ensure the JCB power packs can be easily and safely manoeuvred.

BUILT TO LAST.

The JCB power packs have been designed to withstand the toughest applications, with robustness and ease of movement forefront in the design process.

MAXIMUM PROTECTION

A 100% all-steel enclosure provides maximum protection and durability, securing your power in any application.

ELECTRIC POWER PACKS | 1.25QE / 1.50QE

SPECIFICATION.

| MODELS | 1.25QE | 1.50QE |
|---------------------------|------------------|------------------|
| Single phase output | 230V | 230V |
| Total storage capacity | 23kWh | 46kWh |
| Max depth of discharge | 90% | 90% |
| Continuous output at 25°c | 8kW | 8kW |
| Dimensions | 1000x1000x1000mm | 1000x1000x1000mm |
| Weight | 530kg | 665kg |

STANDARD FEATURES.

- 63A & 32A output sockets
- RCBO protection
- 63A recharging point
- 16A maintenance charge
- Two wire auto-start
- Colour touchscreen display
- 100% steel enclosure
- Stacking facility
- Fork pockets (x4)
- Four point lift

BATTERY POWERPACK

100% ELECTRIC, ZERO EMISSIONS

100% electric. Zero emissions.
